## BLOOD TESTING

ARO wish to remind Owners and Trainers that, at their discretion, horses may be blood typed and/or DNA tested as required to establish their parentage in accordance with Regulation 22B of the British Authority Regulations for Arabian Horse Racing. ARO will exercise this discretion at the time of entry, where circumstances, in their opinion, deem it necessary and irrespective of and against the original registration in a WAHO accepted stud book.

---

## VACCINATION PROCEDURES

Please note the vaccination laws of the UK as below. **Failure to comply will result in the horse's entry being declared void.**

24A. No horse shall be admitted to any racecourse when a meeting held under these Regulations takes place unless accompanied by its Passport giving a complete and up to date vaccination record signed by a Veterinary Surgeon, who is neither the owner nor the trainer of the horse at the time of vaccination. Such a document must show in both cases that it has received two primary vaccinations against Equine Influenza, which has been given no less than 21 days apart and no more than 92 days apart. In addition, where sufficient time has elapsed subsequent to the primary vaccinations the vaccination section of the Passport must be completed to show that:

- (i) A horse has received a first booster vaccination given no less than 150 days and no more than 215 days after the second component of the primary vaccination, and
- (ii) A horse has received booster vaccinations at intervals of not more than a year apart or such lesser time as the BHA may, in an emergency, decide, and that none of these vaccinations has been given within the seven days previous to the race in which the horse is declared to run. **No vaccination must have been given on the day of the race in which the horse is declared to run or on any of the 6 days before the race. A horse which, in the opinion of a Veterinary Officer, fails to satisfy this requirement is not qualified to run.**

*N.B. 1. The above are minimum requirements. The vaccines administered must appear on a list published by the BHA as amended from time to time or be acceptable to a Veterinary Officer and in general should be given according to the manufacturer's instructions. In many cases booster injections are recommended at intervals of less than twelve months.*

*2. All vaccination intervals referred to above are to be calculated by ignoring the day of the vaccination and counting the day of the race.*

---

## STABLE SECURITY

ALL International trainers must provide the names of ALL their stable staff who will be attending their runners on the day. ALL staff, including trainers, wishing to enter the stables will be required to show their passport to the Stable Manager. Only individuals named by the trainer at the declaration stage will be admitted to the stables.

On arrival at the stables all persons will be required to sign in with the Stable Manager or Security Officer on duty and collect a stable pass and wristband. This wristband must be worn at all times when on racecourse property. Any person found in the stabling area without a wristband and unable to produce a stable pass or Trainer/Jockey Badge will be asked to leave the stabling area immediately.

**ALL HORSES WILL NEED A STABLE. NO HORSE WILL BE PERMITTED TO RUN FROM THE HORSEBOX.**

---

### International Entry Checklist:

Please ensure you send:

- Copies of the frontpage, ID/ markings page and vaccination page of the horse's passport
- Full race performance history
- Proof of payment or France Galop account details

Failure to include any of the above will result in the entry not being accepted.

*Please note the vaccination laws of the UK as below. **Failure to comply will result in the horse entry being declared void.***

24A. No horse shall be admitted to any racecourse when a meeting held under these Regulations takes place unless accompanied by its Passport giving a complete and up to date vaccination record signed by a Veterinary Surgeon, who is neither the owner nor the trainer of the horse at the time of vaccination. Such a document must show in both cases that it has received two primary vaccinations against Equine Influenza, which has been given no less than 21 days apart and no more than 92 days apart. In addition, where sufficient time has elapsed subsequent to the primary vaccinations the vaccination section of the Passport must be completed to show that:

(i) A horse has received a first booster vaccination given no less than 150 days and no more than 215 days after the second component of the primary vaccination, and

(ii) A horse has received booster vaccinations at intervals of not more than a year apart or such lesser time as the BHA may, in an emergency, decide, and that none of these vaccinations has been given within the seven days previous to the race in which the horse is declared to run. **No vaccination must have been given on the day of the race in which the horse is declared to run or on any of the 6 days before the race. A horse which, in the opinion of a Veterinary Officer, fails to satisfy this requirement is not qualified to run.**

*N.B. 1. The above are minimum requirements. The vaccines administered must appear on a list published by the BHA as amended from time to time or be acceptable to a Veterinary Officer and in general should be given according to the manufacturer's instructions. In many cases booster injections are recommended at intervals of less than twelve months.*

*2. All vaccination intervals referred to above are to be calculated by ignoring the day of the vaccination and counting the day of the race.*

Declaration:

Herewith I certify that I accept the current racing regulations of the country I will race in and that the above mentioned horse has liability insurance and is vaccinated according to the rules of the country.

**A copy of the complete passport of the horse including a copy of the vaccination page of the passport must be enclosed on the first race entry of a horse in the country. A copy of the vaccination passport has to be enclosed after each subsequent vaccination.**

**Only completed forms will be accepted.**

*Je certifie que j'accepte les règlements courant actuels du pays dans lequel je courrai et que le cheval mentionné a l'assurance responsabilité civile et est vacciné selon les règles du pays.*

*Une copie du passeport complet du cheval en incluant une copie de la page de vaccination du passeport doit être entourée sur la première entrée de course d'un cheval dans le pays. Une copie du passeport de vaccination doit être entourée après chaque vaccination ultérieure.*
