*Please note the vaccination laws of the UK as below. **Failure to comply will result in the horse entry being declared void.***

24A. No horse shall be admitted to any racecourse when a meeting held under these Regulations takes place unless accompanied by its Passport giving a complete and up to date vaccination record signed by a Veterinary Surgeon, who is neither the owner nor the trainer of the horse at the time of vaccination. Such a document must show in both cases that it has received two primary vaccinations against Equine Influenza, which has been given no less than 21 days apart and no more than 92 days apart. In addition, where sufficient time has elapsed subsequent to the primary vaccinations the vaccination section of the Passport must be completed to show that:

(i) A horse has received a first booster vaccination given no less than 150 days and no more than 215 days after the second component of the primary vaccination, and

(ii) A horse has received booster vaccinations at intervals of not more than a year apart or such lesser time as the BHA may, in an emergency, decide, and that none of these vaccinations has been given within the seven days previous to the race in which the horse is declared to run. **No vaccination must have been given on the day of the race in which the horse is declared to run or on any of the 6 days before the race. A horse which, in the opinion of a Veterinary Officer, fails to satisfy this requirement is not qualified to run.**

N.B. 1. The above are minimum requirements. The vaccines administered must appear on a list published by the BHA as amended from time to time or be acceptable to a Veterinary Officer and in general should be given according to the manufacturer's instructions. In many cases booster injections are recommended at intervals of less than twelve months.

2. All vaccination intervals referred to above are to be calculated by ignoring the day of the vaccination and counting the day of the race.

Herewith I certify that I accept the current racing regulations of the country I will race in and that the above mentioned horse has liability insurance and is vaccinated according to the rules of the country.

A copy of the complete passport of the horse including a copy of the vaccination page of the passport must be enclosed on the first race entry of a horse in the country. A copy of the vaccination passport has to be enclosed after each subsequent vaccination.
