<p style="text-align: center;"><u>BRITISH HORSERACING AUTHORITY (BHA) REGULATIONS FOR ARABIAN HORSERACING</u> <u>AND THE BHA RULES OF RACING</u></p>
--

All Owners and Trainers should familiarize themselves with the British Horseracing Authority (BHA) Regulations for Arabian Horseracing and the BHA Rules of Racing. These can be found online at:

<https://www.aroracing.co.uk/members/registration-forms/>

<http://rules.britishhorseracing.com/>

INTERNATIONAL AGREEMENT

ARO operate under the terms and conditions of the IFAHR International agreement for Arabian Horses.

To assist Owners and Trainers, the following areas of the Rules and Regulations have been extracted here:

HORSE ELIGIBILITY AND BLOOD TESTING

ARO wish to remind Owners and Trainers that, at their discretion, horses may be blood typed and/or DNA tested as required to establish their parentage in accordance with Regulation 15(v) of the British Authority Regulations for Arabian Horse Racing. ARO will exercise this discretion at the time of entry, where circumstances, in their opinion, deem it necessary and irrespective of and against the original registration in a WAHO accepted stud book.

15. No horse shall be eligible to be entered or to run in an Arabian Horse Race governed by these Regulations unless:
 - (v) it has been parentage identified to a minimum of **two** generations and its pedigree contains named horses throughout in a minimum of **two** generations, to the satisfaction of ARO.
18. No Race can combine two horses with the same year of birth and the same dam. Where two or more horses have the same year of birth and the same dam they will be reduced to one by random ballot at the time for declaration under Regulation 80. Any horse bred by embryo transfer must be declared as such at the time of entry and failure to make such declaration will cause the horse to be subject to disqualification under Regulation 97 (viii).

VACCINATION PROCEDURES

Please note the vaccination laws of the UK as below. **Failure to comply will result in the horse's entry being declared void.**

19. The Trainer must ensure that every horse that enters any racecourse when a meeting held under these Regulations takes place is accompanied by its Passport giving a complete and up to date vaccination record signed by a Veterinary Surgeon, who is unrelated to and independent of the Owner of the horse, the Trainer of the horse and any Person who is employed by the Trainer. Such a document must show in both cases that it has received two primary vaccinations against Equine Influenza, which has been given no less than 21 days apart and no more than 60 days apart. In addition, where sufficient time has elapsed subsequent to the primary vaccinations the vaccination section of the Passport must be completed to show that:

two primary vaccinations administered not less than 21 days and not more than 60 days apart;

if sufficient time has elapsed since the primary vaccination:

- (i) a booster vaccination which is administered not less than 120 days and not more than 180 days after the second component of the primary vaccination; and
- (ii) further booster vaccinations at intervals of not more than 6 months apart.
- (iii) A horse which fails to satisfy these requirements is not qualified to run, unless the Stewards direct otherwise.

From 01 January 2022, the primary course and booster interval schedule for Equine Influenza vaccinations will be amended as follows:

	CURRENT INTERVAL	INTERVAL FROM 1 JANUARY 2022
VAC 1		
VAC 2	21 – 92 days	21 – 60 days
VAC 3	150 – 215 days	120 – 180 days
BOOSTER	Not more than 1 year apart	Not more than 6 months apart

<https://rules.britishhorseracing.com/#!/book/34/chapter/s3534-vaccinations-code/content>

The changes are as a result of consultation and agreement by the European Horserace Scientific Liaison Committee (EHSCL) Board and the aim for harmonisation of Rules and Regulations across all of the European Racing Authorities.

The BHA and Irish Horseracing Regulatory Board (IHRB), who have also introduced the new intervals from 1 January 2022, have coordinated their approach and staggered the implementation of the full requirement for those horses who were correctly vaccinated as at 31 December 2021 – see below

It should also be noted that the new primary course and booster intervals were implemented in both France and Germany on 05 May 2021, so horses entered to race in these jurisdictions must already be compliant with the new requirements.

Primary course intervals

- Primary course intervals are only required for horses that have not yet been administered a primary course or are required to re-start a new primary course.
- Horses that have a compliant primary course and compliant subsequent boosters up to and including 31 December 2021 **do not** have to re-start the vaccination process.
- Any horse that started a new primary course, up to and including 31 December, should continue with the current intervals, even if V2 and V3 are administered in 2022.
- Any horse starting a primary course from 01 January 2022 must comply with the new intervals.

Six-monthly boosters

- Boosters should be administered no more than six months apart, according to calendar months rather than a fixed number of days. For example, a horse that is fully vaccinated on 01 January would require a booster on or before 01 July.
- We ask that trainers seek to move to the new vaccination schedule as soon as practicable. However, to help trainers implement the changes with minimal disruption to training, horses should be fully compliant with the new requirements by 01 January 2023.
- This means that before 01 January 2023, race entry will not be refused on the ground of having not yet commenced six-monthly boosters.
- As of 01 January 2023, an Entry for a Race, or a Confirmation of Entry in respect of Early Closers, will not be accepted for any horse unless its vaccination record shows a vaccination in the last six months.

- To be clear: all horses must have a compliant vaccination record by 01 January 2023 (i.e.) all horses must have been administered a booster within six months of 01 January 2023.
 - Horses which are due an annual booster between 01 January 2022 – 30 June 2022 will require a booster vaccination between 01 July 2022 – 31 December 2022 in order to be compliant by 01 January 2023.
 - Horses which are due an annual booster between 01 July 2022 – 31 December 2022 will be compliant by 01 January 2023.
NB horses which are vaccinated on 01 July 2022 will be due their next booster on or before 01 January 2023.
- As under the existing Rules, there is no minimum interval for boosters.
- Horses which do not have a compliant vaccination record as of 01 January 2023 will be required to re-start. Horses which have an interval of over six months between boosters will be required to re-start.

N.B.1 The above are minimum requirements. The vaccines administered must either appear on the list of equine influenza vaccinations which is maintained by BHA or be acceptable to a Veterinary Officer and in general should be given according to the manufacturer's instructions. In many cases booster injections are recommended at intervals of less than twelve months.

N.B.2. All vaccination intervals referred to above are to be calculated by ignoring the day of the vaccination and counting the day of the race.

98. A horse is not qualified to start for a race:

- (vii) If it has not been vaccinated at all or if it has received any vaccination against equine influenza on Raceday, or on any of the 6 days before Raceday;

MEDICATION & DOPING CONTROL:

International Trainers must be familiar with the rules regarding UK medication and doping control:

<https://www.britishhorseracing.com/regulation/anti-doping-medication-control/anti-doping-medication-control/>

STABLE SECURITY

International trainers must provide the names and dates of birth of all their stable staff who will be attending their runners on the day. All staff, including trainers, wishing to enter the stables will be required to show their passport to the Stable Manager. Only individuals named by the trainer at the declaration stage will be admitted to the stables.

ALL HORSES WILL NEED A STABLE. NO HORSE WILL BE PERMITTED TO RUN FROM THE HORSEBOX UNLESS PRIOR PERMISSION HAS BEEN GRANTED BY THE BHA.

WHIP REGULATIONS

All Trainers must ensure that their jockeys are familiar with the regulations concerning the use of the whip in the UK races.

NEITHER ARO, NOR THE BRITISH HORSERACING AUTHORITY, CAN BE HELD RESPONSIBLE FOR ANY RIDER'S LACK OF FAMILIARITY WITH THE NECESSARY RACE REGULATIONS.

The current rules and penalties can be found online at:

<https://rules.britishhorseracing.com/#!/book/34/chapter/s3201-table-of-penalties>
